Being an American means being able to make choices. I find that all the local radio stations either want to be talk radio or a format that is not pleasant to my ears. That is why I choose to use xm radio. I then can choose the music or show any time of day or night at any location I desire. It seems to be wrong to set limits on this type of media. Most of the time I listen to xm is when I am in the car. Traffic is very important at that time. If one has a better understanding of traffic, they can do a better job for the envionment by using different routes and not sit in the traffic and let the engine run. Please do not limit xm radio or any other type of media.William A. Graham
